PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on expertise across full-stack web development, scalable backend architecture, and modern AI/data-driven systems. Proficient in React.js, Next.js, TypeScript, Tailwind CSS, and UI/UX design/animations on the frontend, alongside Python (Django, FastAPI), Node.js, and multiple DB stacks (PostgreSQL, ClickHouse, Redis) on the backend. Proven track record architecting event-driven pipelines handling 26.5k+ events/sec, deploying production cloud infrastructure on AWS (EC2, S3, RDS, Lambda) via Docker and GitHub Actions CI/CD, and engineering RAG & vector search solutions.

TECHNICAL SKILLS

Frontend & UI/UX	React.js, Next.js (App Router), TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Figma, Animations (Framer Motion), WebGL/Canvas, React Native, React Flow
Backend & APIs	Python (Django, FastAPI), Node.js, REST API Architecture, Go, ERD & Schema Design, Microservices, Event-Driven Architecture
Databases & Analytics	PostgreSQL, ClickHouse (26 Columnar Tables), Redis, SQLite, Prisma ORM, SQL Optimization, Data Analytics & Reporting
Cloud, DevOps & CI/CD	AWS (EC2, S3, RDS, Lambda), Docker, GitHub Actions CI/CD, Git/GitHub, Linux, Observability (Prometheus, Grafana)
AI, LLMs & RAG (Bonus)	LangChain, LangGraph, OpenAI/HuggingFace APIs, Vector Search & Semantic Embeddings (LanceDB), RAG Pipelines, Redpanda (Kafka)
Core Competencies	Data Structures & Algorithms, System Design, Test Coverage, Code Reviews, High Agility & Autonomous Ownership

PROFESSIONAL EXPERIENCE

Software Engineer (Freelance) — ecentra2k26.in	<i>Remote Jan – Jun 2026</i>
- Architected and deployed an end-to-end full-stack event platform serving 1,500+ registered users, collaborating closely with business stakeholders to automate registration, ticketing, and operational workflows. - Engineered responsive UI using React.js, Next.js, and Tailwind CSS, translating Figma wireframes into polished, animated web components with smooth interactions. - Modeled relational schemas (ERD) and implemented resilient Node.js REST APIs with PostgreSQL (AWS RDS), handling concurrent traffic bursts reliably. - Configured AWS cloud infrastructure (EC2, S3, RDS, Lambda) and automated deployment pipelines via GitHub Actions CI/CD and Docker, ensuring zero-downtime releases.	

KEY PROJECTS

Chrontinal — Distributed Event-Driven SIEM & Analytics Platform Repo	<i>Feb 2026 – Apr 2026</i>
<i>Python (Django / FastAPI) · Next.js 14 · TypeScript · Go · ClickHouse · Kafka · Docker</i> - Architected an event-driven data and analytics engine sustaining 26,586 events/sec with 0% data loss across 14 Redpanda (Kafka) topics and 26 ClickHouse analytical tables. - Built a production-grade 17-page control dashboard using Next.js 14, React 18, and TypeScript with 40 REST routes, real-time polling telemetry, and React Flow attack-graph visualization. - Engineered backend microservices integrated with LanceDB vector search (all-MiniLM 384-dim semantic embeddings) for automated similarity search, alert correlation, and RAG retrieval. - Deployed full observability with Prometheus (11 scrape targets) and Grafana dashboards, and automated CI/CD container builds via Docker.	
AI Investment Research & RAG Decision Engine Repo	<i>Jul 2026</i>
<i>Next.js (App Router) · TypeScript · LangGraph · Python · REST APIs · Tailwind CSS</i> - Engineered an 11-node directed execution graph automating multi-stage analysis, semantic vector retrieval, and RAG synthesis across web search and financial REST APIs. - Developed an interactive Next.js streaming UI with Server-Sent Events (SSE) and Framer Motion animations for live agent telemetry and node execution tracing. - Integrated prompt-injection defenses and deterministic citation guardrails; added fault-tolerant fallbacks so rate-limit bottlenecks degrade gracefully without state loss.	

ACHIEVEMENTS & CERTIFICATIONS

• Jury's Choice Award — Cyber Security Innovation Challenge 1.0 (MEITY, NASSCOM & DSCI Collaborative)	Apr 2026
• Top 10 Finalist (Ranked 8th of 150+ teams) — University-level Innovation & Hackathon	Dec 2024
• Data Structures and Algorithms — Lovely Professional University	May 2025
• Career Essentials in Generative AI — Microsoft / LinkedIn Learning	Sep 2025
• Google Cybersecurity Professional Certificate — Google / Coursera	Feb 2025

EDUCATION

B.Tech. Computer Science & Engineering — CGPA: 8.0	<i>Aug 2023 – Present</i>
<i>Lovely Professional University, Phagwara, Punjab</i>	
Intermediate (PCM) — 96.7%	<i>Mar 2022 – May 2023</i>
<i>Narayana Junior College, Nellore, Andhra Pradesh</i>	
Matriculation — 99%	<i>Mar 2019 – May 2020</i>
<i>Narayana School, Nellore, Andhra Pradesh</i>
